BREAD

(Part Baked)

Our new bread range originates from a Bakery in northern Spain. A culture where bread plays such an important part of every meal.

All our breads are clean recipes, meaning they have no additives, artificial preservatives or flavourings. Just great bread made in a traditional way to taste the way great bread should.

High levels of hydration and the additional use of natural sourdough in some of our recipes, means our bread stays fresher for longer.

The use of long fermentation times, natural sourdoughs and a combination of different flours are what give our bread its characteristic taste and texture.

Different baking techniques allow us to bake bread on trays or on the sole-of-the oven for a perfect stone-baked finish ensuring every piece of bread has lovely aeration, crumb texture, crisp crust and most importantly tastes incredible.

If that wasn't enough, our unique 'Express' recipe format allows you to take bread from your freezer and have warm, fresh baked bread ready in just 3-5 minutes. Perfect for a bread basket, banquet selection or sandwich offer, we've got all the bases covered.
