# Ice Cream & Sorbet

## GOURMET ICE CREAM FROM DESTINY FOODS

As part of La Compagnie des Desserts group, headquartered in the South of France, Destiny Foods has exclusive UK supply of a range of amazing ice creams and sorbets created with quality ingredients, using traditional and artisan techniques.

As an established desserts supplier to the UK hotel and restaurant market, we know that the final course of a special meal is so important to give a positive final impression.

Our Ice cream range is a key part of our mission to be a specialist partner for the whole dessert menu – a true one-stop-shop supplier with irresistible products, reliably delivered.

## WHY CHOOSE OUR ICE CREAM ?

Our products are only sold in the hospitality market. Our core range is focussed on quality and innovation with the classics done well and some amazing flavours to try. We produce larger tubs to deliver great value in the core favourite flavours, as well as some mind-blowing premium flavours that use the best ingredients we can find to create really memorable experiences.

Our zingy sorbets really stand out on their own, with high percentages of natural fruit puree, they contain less sugar than most sorbets in the market and have a beautifully smooth texture.

## GOOD INGREDIENTS IN, GREAT FLAVOURS OUT

Good Ice cream is about delivering great flavour with a perfect smooth texture. With each product we balance the level of raw materials to give a natural flavour, the right type and quantity of sugars and fats and the perfect distribution of air as 'overrun' to ensure the end-result is never too dense or too light.

Each flavour requires a different balance and with over 40 years' experience working with chefs across France, tinkering with different ingredient combinations, we create the perfect product for our customers every time.

We only supply quality ice cream from good raw materials. The right recipe and production methods give our ice cream a structure that melts slowly, arriving at the table as a perfect boule and not a puddle!

## WE'VE GOT IT COVERED

With over 80 ice creams and sorbets in the range, we've got something to cover all the bases for the premium UK dining scene. Whether it's a decent vanilla to go alongside your favourite brownie or sticky toffee pudding, a zingy and refreshing fruit sorbet or savoury ice cream to pep up a starter and cleanse the palette.

For larger restaurant groups we are also able to work on bespoke flavours to order. Oyster, Ylang Ylang, Champagne, Parmesan we've over 3,000 recipes in our back-catalogue. Is there a flavour that would help to make a statement on your menu?

## OUR DIFFERENT RANGES

---

### Premium Ice Cream Ranges

Our main range of ice cream is focussed on quality and innovation. The core classics such as vanilla, chocolate, pistachio and strawberry are great examples of popular ice cream flavours done well. Added to this are more adventurous choices with the likes of honey, violet and tonka bean to give new flavour sensations and add colour and innovation to dessert menus.

### Sublime High Fruit Sorbets

Our high fruit sorbets are the jewel in the crown of our range – typically with 30-50% fruit they deliver real natural flavour and great texture, perfect on their own or to add freshness and contrast to dessert dishes.

### Best Value 5 Litre Tubs

Our 5 litre tubs offer really competitive prices on favourite flavours. They are great as an accompaniment to classic desserts and work well as a good quality ice cream for the kids' menu and still made with the same care and attention as the rest of our product range.

## Take It Up a Notch With Our Super-Premium Products

Our super-premium ranges hold no punches when it comes to delivering amazing flavour. The ice creams use fresh milk from one farm in the foothills of the Pyrannees. Our premium salted caramel ice cream, for example, uses a traditionally produced caramel slowly blended in a traditional cauldron from an artisan caramel producer close to where the ice cream is made. Our super-premium sorbets use exceptionally high levels of natural fruit, many sourced from co-operatives in the Rhone Valley.

## Raise a Few Eyebrows With Savoury Ice Cream and Sorbet

Within our super premium range, you'll find some spectacular savoury ice creams and sorbets. Super-delicious and very versatile these can be used to add a surprising and refreshing lift to starters and salads or a surprising sweet/savoury combination to carefully created dessert plates.

## Impressive 6 L Parlour Tub

Our ice cream parlour tubs come have a high rippled top for a fantastic visual display to really show off the colour and texture of the ice cream. Perfect for Ice Cream parlours or anywhere serving ice cream from a counter. We've chosen a range of indulgent flavours which adults and kids will all love.
